

RECYCLE YOUR NON-FERROUS SCRAP...

Tin Scrap & Dross, Babbitt Turnings, Solder Alloys & More

NATHAN TROTTER RECYCLES METAL

GENERAL DESCRIPTION

Although Nathan Trotter does not utilize any scrap or secondary metals in our finished products, we do provide customers the ability to return tin and tin alloy scrap, drosses, skimmings and turnings for processing and reclamation.

With the rising costs of all non-ferrous metals, it only makes sense to send your valuable scrap to a reputable and trusted supplier. Nathan Trotter has been in business for over 225 years and our reputation speaks for itself.

In addition to offering our customers the highest quality virgin metal finished products, we can also provide them with our expertise in recycling their scrap and secondary metals.

Please contact us for a free evaluation of your material.

- Prompt Settlement of Scrap Transactions
- Option to Receive Credit or Check
- Wire Transfers to Your Account

SCRAP CONVERSIONS

Nathan Trotter has the ability to process and refine higher grades of scrap, add the necessary tin units and convert your material back to specification. In order to evaluate your scrap, we highly recommend that you send us a representative sample for analysis. Results are usually returned in 2-3 days upon receipt.

NATHAN TROTTER SCRAP EVALUATION & SAMPLING

Nathan Trotter has a state-of-the-art in-house lab that is available to assist you in determining the metal content & value of your scrap. Please contact us to obtain pricing information or to submit an evaluation sample of your non-ferrous scrap.
